

Make windows like it used to be (Windows 11 start menu etc)

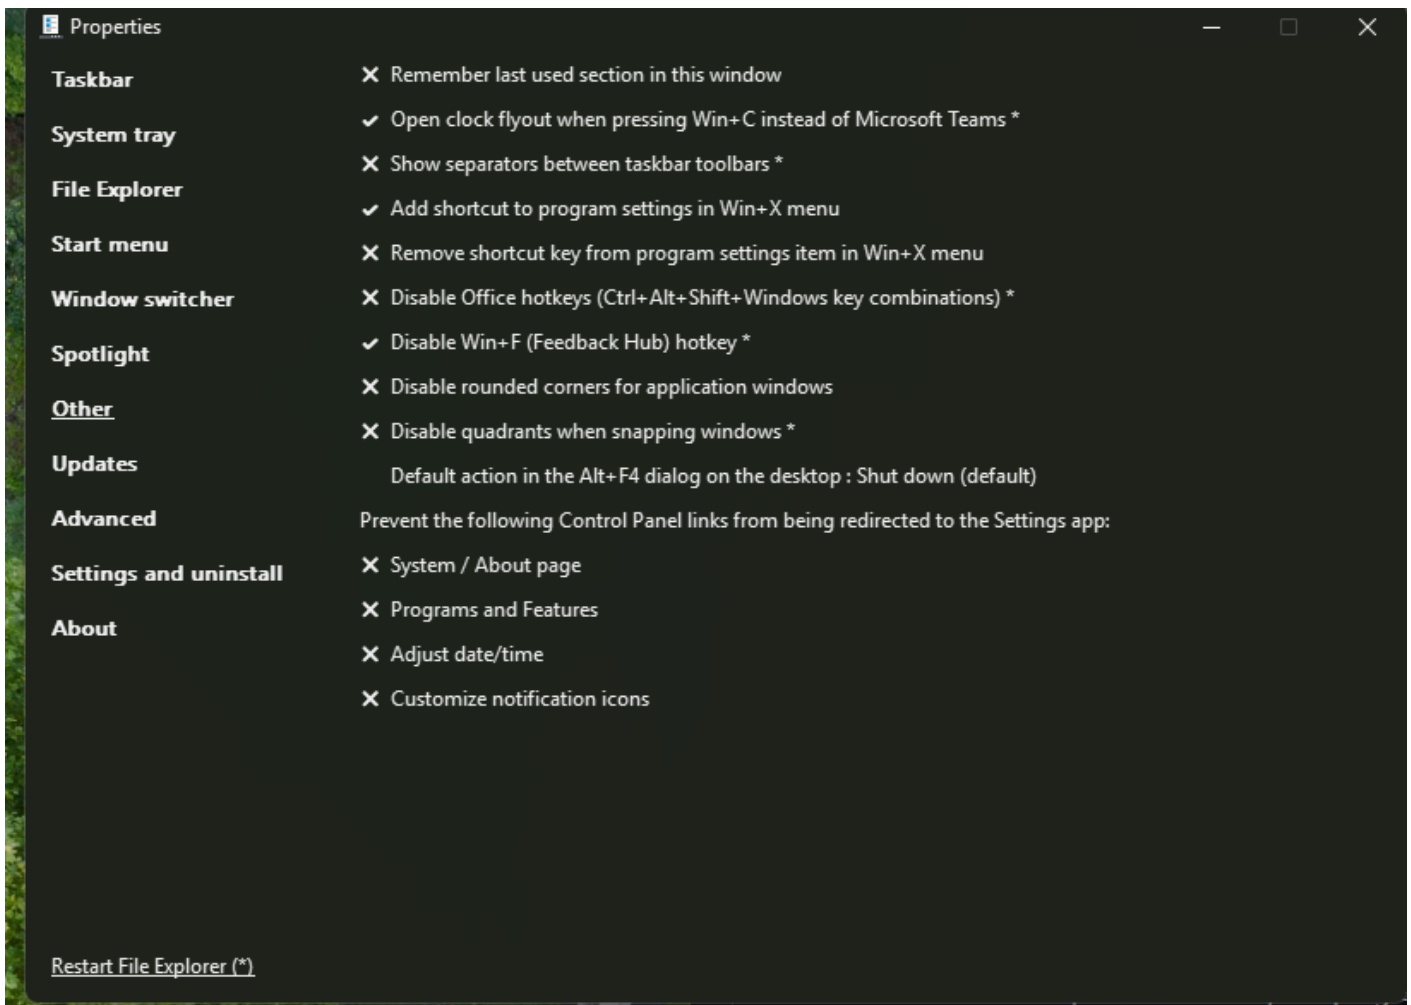

Windows 11 feels nice, but the start-menu and context menu integrations always get in the way.

The following app allows to completely set the behaviors to your hand and remove the annoying "features"

1. Install ExplorerPatcher from here <https://github.com/valinet/ExplorerPatcher>
2. Install as administrator
3. Start the application by right-clicking the menu bar and selecting "Properties"

4. Configure as you like
